Dear **[Participant's Full Name]**

You may remember we contacted you in the last few months to ask for your help in this year's Understanding Society study. As we have not yet been able to interview you, we hope you don't mind if we try to visit you again to arrange a convenient time to do so.

This is why your views and experiences are so important to our study:

- 1 By taking part, you help us ensure that the study represents all types of people across the UK, and can paint an accurate picture of what our society looks like today and how it is gradually changing. The study provides vital information for policy makers, so the more people that take part in the study, the better informed and able they are to **improve society for everyone**.
- 2 Taking part gives you a voice on **issues that matter to you**, your family and your community. The data collected from participants are very widely used by researchers in all kinds of fields including employment, health, and education.
- 3 You have been part of this study for the last few years and **we can't replace you with anyone else** as no two lives are the same. The contribution you make is really vital to us and to the academics and policy makers who use the data.

Although your participation is entirely voluntary, we do hope you'll be able to help.

We will try to get in touch with you again soon, and hopefully you will enjoy taking part in the study this time around as well.

If you have any questions, please call or email the participant helpline (see back of this letter). You can also find out more about the study on our website at www.understandingsociety.ac.uk.

Dear **[Participant's Full Name]**

Congratulations on winning an iPad! Everybody who has turned 16 in the last year and took part in the Understanding Society adult survey in April to June this year was entered into the draw.

As someone who will be making a lot of life decisions in the next few years it is extra important that we talk to people like you. Interviewing you and others in your position allows researchers to find out how society is changing for young people; how the economy is affecting them at work or in education, and how decisions made now and in the past will affect your future.

Everyone is valuable in our survey - **we can't replace you** - and this is the main strength of a study like ours: it follows the same people over time. Only by following the same people over time can researchers identify patterns and trends which can help inform better policy making in Government.

I hope that you will continue to participate. Each time we interview you, the information you have already given becomes even more valuable!

Thank you, again, for taking part in this important study.

Yours faithfully,

Professor Michaela Benzeval

Director, Understanding Society.

Dear ***

Understanding Society is an innovative world-leading study about life in the UK. The data you help produce allows researchers and policy makers to better understand the state of the UK and to propose improved policies for people across the country.

Why we need you

The success of the survey is primarily driven by people like you. It is only with your participation that we can collect the data necessary to understand the pace of change in the UK and probe how issues such as immigration, the economy and changing social values impact upon the lives of individuals.

Next step

If you would like to complete online, you can access the survey [here](#).

If you are not able to complete your interview online, an interviewer will contact you by telephone in a few weeks and you can take part over the phone. Unfortunately interviewers cannot do any in-person interviewing because of the health risks caused by the coronavirus Covid-19 until government advice around reducing contact is relaxed, so doing your interview online is the easiest way to take part this year.

And finally, if you are able to complete the survey online by {eb_date_english}, we will send you an additional £10 gift card as a thank you for your early completion.

Thank you for taking part in Understanding Society

Dear **[Participant's Full Name]**

As well as interviewing adults, Understanding Society also interviews children aged 10-15 by asking them to complete a short paper questionnaire. Having children answer questions about their life is really valuable to the Study and helps us better understand issues that may particularly affect children and young people.

We have recently sent you a paper questionnaire to pass on to **[Child_name]** to complete. At the moment we do not have a record of the questionnaire having been returned.

If **[Child_name]** has completed the questionnaire and it has been posted back in the last few days - thank you and please ignore this letter.

If they haven't yet completed their questionnaire, we would be grateful if you could encourage **[Child_name]** to complete it and post it back to us. Just like the adults that take part in Understanding Society, children's experiences are unique and we can't replace them with anyone else.

By taking part in the youth survey, **[Child_name]** will help many organisations carry out important research that will improve life in the UK for all. For example, charities such as The Children's Society and Barnardos are using information from the survey to improve children's wellbeing, whilst the Social Metrics Commission has used the information to report to the government on what activities children do outside of school. To find out more about who uses the study, please visit www.understandingsociety.ac.uk/participants

If you have any questions at all about Understanding Society, please contact us using the details on the back of this letter.

Yours sincerely,

Professor Michaela Benzeval

Director, Understanding Society.

Thank you for taking part in Understanding Society

Dear **[Participant's Full Name]**

Thank you ever so much for your recent participation in Understanding Society. At the end of the interview we mentioned that there is a short self-completion questionnaire that we would like **[Child_name]** to complete.

We would be grateful if you could look through the blank questionnaire and, if you are happy to do so, give it to **[Child_name]**. When **[Child_name]** has completed the questionnaire, they can put it into the envelope enclosed and it can be posted back to us, free of charge.

As you know one of the really important features of the survey is that everyone's answers are completely confidential. This really helps us get responses from people that are completely truthful and accurate and makes the survey one of the best in the world. This applies to all the adults who take part but also all the children, so we ask all parents/guardians to allow their children to complete the questionnaire in private. We hope you understand why this is so important, but if you have any questions, don't hesitate to contact us.

As a token of our appreciation, I have enclosed a £10 voucher for **[Child_name]**.

If you have any questions at all about Understanding Society and your involvement in it, please contact us using the number on the back of this letter. Do also check our special participants' website where you can read some early findings, send us a message or just find out more information about Understanding Society: www.understandingsociety.ac.uk/participants.

Yours faithfully,

Professor Michaela Benzeval
Director, Understanding Society.
